CALAJECT™ - Computer Assisted Local Anesthesia

• Intuitive touch interface
• Injection pressure display and automatic shutoff at high resistance
• Audible signal indicating flow rate
• Balanced handpiece with ergonomic, pen-like grip
• Unobstructed view of anesthetic carpule throughout the injection process
• Automatic aspiration

The secret to delivering pain-free injections is a controlled, gentle administration of the anesthetic solution. With a traditional syringe, delivering a single carpule of anesthetic below the pain threshold is a challenging task – much less doing it time after time throughout the day. CALAJECT takes the guess work out of anesthesia delivery by controlling the flow rate, monitoring injection pressure, and providing hands-free aspiration.

Automated Delivery Programs

CALAJECT utilizes three automated programs that control and optimize anesthetic flow below pain detection levels:

I. Intraligamental PDL & Palatal injections
II. Infiltrations
III. Regional Nerve Blocks

No Disposables

Used with standard dental needles and anesthetic carpules, CALAJECT has no single-use components or disposable tubing sets, making it the most economical computer controlled anesthesia system on the market.

Call 425-408-9334 or visit aseptico.com/calaject
For over forty years, Aseptico has been a premier manufacturer and distributor of high
class implant, endodontic, and portable dental equipment.

Aseptico dental equipment is developed, manufactured, and sold in-house. Our
engineering team designs our products to be regulatory compliant to U.S., Health Canada
and international manufacturing and safety standards, allowing us to export to over
125 countries. We build and service our products at our headquarters in Woodinville,
Washington, to ensure the reliability you expect from American-made equipment. Buying
direct from Aseptico means you are getting the highest quality product at the lowest
possible price. We believe these advantages set us apart.

At Aseptico our motto is “Advancing Dental Technology.” Since 1975, it has been our
steadfast commitment to bring you high quality, innovative products you can depend on.
6000 Series Implant Motor

- Recommended for implantology and endodontics
- Places up to 50 Ncm (w/ Mont Blanc handpiece)
- 15-2,000 rpm with 20:1 implant handpiece
- Control the entire procedure from the foot pedal
- Reusable, autoclavable irrigation tubing. No more buying disposable tubing!
- Console Dimensions: 8.6"W x 9.2"L x 4.8"H (22 x 23 x 12 cm)
- Dual voltage: 100-240V

The AEU-6000 is our best-selling implant motor because of its reliability and affordability. This versatile machine performs standard or mini implants and endo with auto-stop-reverse. It also can be used to back up your restorative and oral surgery systems. No other machine can give you these benefits at such an affordable price.

With upgradeable software, this unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don’t have to buy tubing for every procedure. Five preset buttons can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

“I have really enjoyed my Aseptico AEU-6000. It meets all my surgery needs, from placing implants to removing full bony impacted wisdom teeth.

I have found that this unit has more features and better torque than my old W&H...
Ever since using the Aseptico product my W&H hasn’t seen the light of day.”

— Heath Snell DDS
7000 Series Implant Motor

- Recommended for implantology, oral surgery, and endodontics
- Places up to 80 Ncm (w/ Mont Blanc handpiece)
- Compatible with all implant systems
- Outperforms all competitors
- Console Dimensions: 9.98”W x 9.42”L x 5.1”H (25.4 x 24 x 13 cm)
- Dual voltage: 100-240V

The 7000 series motor is the pinnacle of implant motor technology. Thirty years of motor making experience has culminated in the ultimate specialty motor. A multi-function foot pedal allows for complete control of the system while not breaking the sterile field. Autoclavable irrigation tubing saves you hundreds of dollars a year in disposable costs. This motor features upgradeable software, allowing the unit to adapt to new developments in dentistry.

Complete with an advanced calibration system and optional fiber-optic upgrade, the 7000 Implant, Oral Surgery, and Endo System is the perfect motor for the user looking for an advanced all-in-one system.

LED Implant Motor w/ Variable Foot Control AEU-7000L-70V ........................................... $5,130
Implant Motor w/ Variable Foot Control AEU-7000E-70V ........................................... $4,580

Mont Blanc Implant Handpiece

- 80 Ncm Maximum Torque
- 20:1 Reducer
- 15 - 2,000 rpm (w/ 40k rpm micromotor)

The Mont Blanc Implant Handpiece is crafted from stainless steel and titanium, making it lightweight and durable. It features smooth surfaces that improve infection control and ensure easy cleaning. Precision ball bearing construction reduces friction to prevent overheating during surgical procedures.

Impulsion Implant Handpiece

- 55 Ncm Maximum Torque
- 20:1 Reducer
- 15 - 2,000 rpm (w/ 40k rpm micromotor)

Rated to a max torque of 50-55 Ncm, the Impulsion Dental Implant Handpiece offers great value. This reliable handpiece uses a sleeve bearing, making it a good handpiece for drilling an osteotomy at an affordable price.

A must for proper handpiece cleaning and maintenance!

AseptiSpray™ Handpiece Cleaner & Lubricant

- **“Y” Connector AE-2 .................................................. $4
The AEU-7000 with the appropriate handpiece attachment from Aseptico is the workhorse in my practice for doing implant surgery, bone reduction and contouring as well as removing 3rd molars. It is a must for any practice looking to add these procedures to their practice. In fact, I recommend it to all my doctors that attend the Reconstructive Dentistry Institute.”

— Ara Nazarian DDS, DICOI

7000 Series Oral Surgery Motor

- Recommended for oral surgery and implantology
- Guaranteed reliability
- Designed and manufactured in the U.S.A.
- 4.95 Ncm of torque at 80,000 rpm
- Easy cleaning and maintenance
- Console Dimensions: 9.98”W x 9.42”L x 5.1”H (25.4 x 24 x 13 cm)
- Dual voltage: 100-240V

The 7000 Series Oral Surgery Motor is powerful and efficient, with adjustable torque up to 4.95 Ncm for surgical applications. Smooth surfaces and rounded corners make wipe-down easy and prevent the buildup of dirt and debris.

Paired with a 1:2 Oral Surgery Handpiece, this impaction drill is perfect for third molar extractions and impacted teeth, as well as other surgical procedures. The motor and handpiece are autoclavable and can be used immediately after the sterilization cycle is completed.

Oral Surgery Motors
AHP-79W 45° Electric Surgical
- 1:2.7 increaser
- 2,700 - 108,000 rpm (w/ 40k rpm micromotor)

The AHP-79W 45° Electric Surgery Highspeed Handpiece is ideal for precise tooth separations and apical resections. The 45° head allows for optimum access to the posterior of the mouth. Available in non-fiber optic and self-generating fiber-optic options, this handpiece comes complete with a triple-spray head that guarantees sufficient cooling of rotary instrument and tooth.

45° Electric Handpiece w/ LED AHP-79W-FO . . . . . . . . . . . . . . . . . . . . . . $1,727

AHP-77W 20° Electric
- 1:2 increaser
- 600 - 80,000 rpm (w/ 40k rpm micromotor)

The AHP-77W 20° Electric Surgery Highspeed Handpiece has the highest torque on the market. With a completely re-designed turbine and new smaller head this handpiece is your ideal air-driven surgical solution. The 360° swivel coupler and new solid titanium body ensure premium comfort and control during even the most challenging surgical extraction.

20° Electric Handpiece w/ LED AHP-77W-FO . . . . . . . . . . . . . . . . . . . . . . $1,669

AHP-99 45° Air-Driven Surgical
- 45° bend for optimum comfort
- 1:2 increaser
- 20° bend for optimum comfort
- 600 - 80,000 rpm (w/ 40k rpm micromotor)

The new AHP-99 45° Air-Driven Surgical Highspeed Handpiece is the oral surgeon’s number one choice for third molar extractions. The angled design prevents fatigue by allowing it to rest on the back of the hand. A scratch-resistant surface and reinforced nose bearing guarantee durability, and the sliding lip seal protects the interior from penetration of dirt particles.

45° Air-Driven Handpiece w/ LED AHP-99FO . . . . . . . . . . . . . . . . . . . . . . $1,799

AHP-77DS Straight Electric
- 600 - 80,000 rpm (w/ 40k rpm micromotor)

The AHP-77DS Straight Electric Highspeed Handpiece is lightweight and compact. The traditional straight design allows for exceptional posterior access. With rotation speeds up to 80,000 rpm, this handpiece is a great option for bone contouring and sectioning teeth.

Straight Electric Handpiece AHP-77DS . . . . . . . . . . . . . . . . . . . . . . . . . $1,500
**Technique Chain & Grid**
- 10 sets per box
- 14k gold chain
- 3 grid shapes available

Technique Chain & Grid easily attaches to a pre-emerged tooth, so that an orthodontic device may be used to draw the tooth into proper position. Aseptico is the originator of this remarkable traction system that professionals use worldwide.

Endo DTC® Rotary Motor

- Most sold, most trusted motor in America
- Tulsa File Library included
- Auto-Stop-Reverse functionality

The Endo DTC® (AEU-25) has sold more units in the United States than any other endodontic device. With time-tested reliability and durability, the DTC is your next endodontic solution.

Endo DTC® AEU-25 ................................................................. $1,470

Replacement Parts:
- Micromotor AE-4B-30 .................................................. $680
- On/Off Foot Control AE-7P .............................................. $110

Advanced Endo Rotary Motor

- Lighter handheld motor
- Upgradeable software
- Weighted omnidirectional foot pedal
- Includes all features of America’s most popular endo motor, The Endo DTC®

The AEU-27A Endo Motor brings all of the features of our legacy endo motors into a lighter, sleeker design. Includes a weighted, omnidirectional foot pedal, and lightweight micromotor.

Endo Motor AEU-27A ................................................................. $1,595

Replacement Parts:
- Micromotor AE-250-30 .................................................. $615
- On/Off Foot Control AE-7PM ......................................... $150
Anthogyr MicroNiTi Endodontic Handpieces

- Available in push button or swing latch
- Speed range (w/ 30k rpm micromotor):
  - 16:1 — 20 to 1,800 rpm
  - 8:1 — 40 to 3,600 rpm

Anthogyr’s MicroNiTi series of endodontic handpieces are synonymous with quality. They provide unrivaled accuracy, whether with a rotary or reciprocating motor. The small head size allows for great access and line of sight during procedures. Crafted from nickel-titanium alloy, the MicroNiTi is durable and will last for years.

Push Button
- 16:1 AHP-62MNP .............................................. $740

AHP-72S-FO Restorative Electric Highspeed

- Internal irrigation
- 1:5 Increaser
- Fiber optics
- Max 200,000 rpm (w/ 40k rpm micromotor)
- Perfect for highspeed dentistry with your electric operative motor

The AHP-72S-FO Restorative Electric Highspeed Handpiece is strong yet quiet. Built-in fiber optics work with any fiber optic motor. Targeted irrigation helps cool the site and lower temperatures at the bur tip. Upgrading your operatory to electric handpieces is easy with this handpiece’s intuitive, ergonomic design.

- 1:5 Highspeed AHP-72S-FO ................................... $1,219

AHP-65Ti Restorative Electric Highspeed

- External irrigation
- 1:3 Increaser
- Optional fiber optics
- Max 120,000 rpm (w/ 40k rpm micromotor)
- Perfect for highspeed dentistry with your implant/surgical motor

With an external irrigation port and 1:3 increaser gearing, the AHP-65Ti Restorative Electric Highspeed Handpiece makes any surgical motor with irrigation into a restorative powerhouse. Ergonomic and lightweight design allows for optimum comfort during your procedure.

- 1:3 Highspeed w/ Fiber Optics AHP-65TI-FO ............ $1,299
- 1:3 Highspeed AHP-65TI ........................................ $999

"As a pediatric dentist, I believe that all children must be treated with a rubber dam to eliminate the possibility of aspiration of any foreign object, to maintain a dry field of operation, and to protect the child from any incidental soft tissue trauma.

I highly recommend Aseptico HandiDam as its fabrication from high-quality materials enhances patient safety, provides easy and quick operator placement, and offers patients a higher degree of comfort.”

Transport III Portable Dental System

- High torque electric motor
- Fiber optic electric handpiece connection
- High volume evacuator
- Saliva ejector
- Quiet, intuitive, powerful
- Built-in maintenance free compressor
- Water port for cavitrón/scaler
- Dual voltage
- Optional fiber optic scaler
- 57 lb (25.8 kg)
- 17.9" x 10.4" x 22.1" (45.5 x 26.4 x 56.1 cm)

The Transport III is Aseptico’s premium portable dental system. Features include noise reduction technology, an intuitive user interface, and 40k rpm brushless autoclavable micromotor. It is easy to set up, operate, and tear down. All components fit neatly into the impact resistant carrying case with wheels.

Delivery module and user interface panel mount externally on a secure handle, placing controls and instruments at a comfortable level.

Dual level fluid sensors alert the user when the tank is 75% full for better procedure planning. “Full” level sensor shuts the compressor off. Externally mounted waste containers mean faster and cleaner waste disposal.

Transport III w/ Scaler AEU-525S ........................................ $9,530
Transport III w/o Scaler AEU-525 ........................................ $8,190

Replacement Parts:

- Thin Subgingival ASC-10-PE37 ..................................... $136
- Power Universal ASC-10-PE39 ...................................... $117

Shown with optional scaler (handpieces sold separately)
Express Portable Dental System

- Available with one or two air handpiece connections
- High volume evacuator
- Saliva ejector
- Built-in maintenance free compressor
- Water port for cavitron/scaler
- 1 gallon waste container
- 110V or 220V switchable voltage
- 43.5 lb (19.7 kg)
- 10.5” x 14.5” x 24” (27 x 36 x 61 cm)

Aseptico’s most popular portable unit, the Express is a fully self-contained, lightweight, air-driven portable dental system. This powerful unit features up to two handpiece connections, high volume and saliva ejector suction, internal water reservoir, three-way syringe, and integrated air compressor. Foot control options include on/off electric or variable rheostat. The Express is transported using a pullout handle and built-in wheel assembly. Its compact size allows for convenient storage, while the impact-resistant case makes the Express ideal for any field environment. Designed for global use, the Express is compatible with 110V or 220V power sources.

Two Handpiece Connections ADU-17A2 or ADU-17X2 .................................................. $4,695
One Handpiece Connection ADU-17A or ADU-17X ...................................................... $4,495
Fiber Optic Upgrade Kits:

Replacement Handle/Wheel Kit Assembly 710201 ....................................................... $260

“The ADU-17 is proving to be everything we hoped for in a mobile dental unit. Easy to start, easy to run and simple to maintain. It is also being used in our main clinic and shared between two chairs which before had no fixed delivery system.

The size and weight are very manageable and this model provides everything a dentist or hygienist could need in any setting.”

— Marion Bailey DMD

Taskforce Portable Dental System

- Lightweight and easy to carry
- Two air handpiece connections
- Powerful saliva ejector vacuum
- Built-in maintenance free compressor
- Water port for cavitrone/scaler
- 110V or 220V switchable voltage
- 32.6 lb (14.8 kg)
- 12.5" x 17.5" x 7.5" (31.8 x 44.5 x 19.1 cm)

The most compact pneumatic portable dental system, the Taskforce represents the best value on the market. At 32.6 pounds the Taskforce is easily carried from location to location. This unit includes two handpiece connections (highspeed/slowspeed), low volume suction, and air water syringe, making it the ideal system for mobile hygiene. Simple and easy to use, the Taskforce can be set up or put away in just minutes.

• Foot actuated controls
• Adjustable with patient in chair
• 300 lb weight capacity
• No external power required
• Wheels for easy mobility
• 69 lb (31.3 kg)
• Hydraulic adjustable seat height: 11" - 33" (27.9 x 83.8 cm)
• Folded dimensions: 33" x 22" x 18" (83.8 x 55.9 x 45.7 cm)

Hydraulic AseptiChair ADC-02 ........................................... $6,275

Hydraulic AseptiStool
• Easy set-up and storage
• Includes padded case
• Hydraulic adjustable height: 18" - 25.5" (45.7 - 64.8 cm)
• 19 lb (8.6 kg)
• Padded carrying case: 26" x 26" x 11" (66 x 66 x 28 cm)

Hydraulic AseptiStool ADC-10 ........................................... $675

Aseptico ADC-08 makes the smallest, lightest weight, most efficient equipment I have ever utilized. We traveled to the Mississippi Gulf Coast following Hurricane Katrina. We treated children from New Orleans & the Mississippi Gulf Coast using Aseptico equipment. It functioned without problems in an extreme environment.”
— Richard L. Smith DMD

Chairs & Stools Available in Red, Gray & Blue
AMC-20 Self-Contained Mobile Operatory

- No plumbing required
- Fully self-contained dental cart with built-in air compressor
- Unique pivoting control arms & easy-grip side handles
- Two automatic highspeed air handpiece connections
- One automatic lowspeed handpiece connection
- High & low volume suction with automatic overflow protection and solids trap
- Standard 110V at 60Hz (Dual Voltage Optional)
- Operating pressure 80 psi
- 158 lb (71.7 kg), 26.8" x 22.5" x 35.1" (68 x 57.2 x 89.3 cm)

This fully self-contained mobile operatory is ideal for new or expanding practices. The AMC-20 is regulatory certified to US, Canadian, and European safety standards. Easy mobility allows use at work sites, nursing homes, hospitals, etc. Many optional accessories make customizing for your needs easy.

"I first discovered the AMC-20 when I was looking for mobile equipment for my new Urgent Dental Care Practice. I did not want the extra expense of installing lines and plumbing for a full compressor and vacuum.

These units are user-friendly and self-contained. I was so confident about the quality of this dental unit, I had my military unit order one for our Dental Readiness and Mobility mission."

— Robert Byrd DDS
Compricart II Delivery System

- Two air handpiece connections
- High volume evacuator
- Saliva ejector
- Stainless steel instrument tray
- Two liter self-contained water bottle

Roll the Compricart II Mobile Dental Cart from room to room with ease! Great for hospitals and expanding dental offices, the simple controls of the Compricart II make operation stress-free. A compact design, ample work surface, stainless steel instrument tray, integrated water supply, and venturi suction (high volume and saliva ejector) round out the features of this versatile platform. Just connect to an air source – no central vacuum required! Including the optional AWS-1C allows an external scaler to use the cart’s water supply.

AEU-5000 Electric Operative Motor

- Attach to your air-driven high speed connection and use your own rheostat
- Electrical option for general dentist to do restorative faster, quieter and safer
- Up to 200,000 rpm with high speed handpiece
- Powerful, high torque electric motor
- Intuitive design and operation
- Endo mode with auto-stop-reverse torque setting

Electric Operative Motor AEU-5000: $1,430
Adjustable Mounting Bracket 330589: $60
Replacement Micromotor AE-240-40: $850
Recommended Handpieces...
Heavy Duty Lab Motor
- For heavy acrylic use
- Powerful one piece handpiece
- 35k rpm micromotor
- Console with adjustable speed and direction
- Available in 110V or 220V
- Includes AE-7P On/Off Footswitch

Battery Powered Portable Lab Motor
- Versatile E-type connection with straight handpiece
- 22k rpm micromotor
- Console with adjustable speed and direction
- Dual voltage
- Available in black, pink, or white
- Includes a high torque motor, handpiece, and long-lasting Li-ion battery.

Versatile Lab Motor
- For light to medium acrylic use & slow speed prophy
- Versatile E-type connection with straight handpiece
- 32k rpm micromotor
- Console with adjustable speed and direction
- Available in 110V or 220V
- Includes AE-7P On/Off Footswitch

Available in Black, White & Pink
Warranty
Aseptico warrants its products against defects in material or workmanship for a period of two (2) years, from date of original invoice. This warranty is not transferrable. Some handpieces are warranted for one year under the same conditions. Other handpieces and expendable components, such as air turbines and light bulbs, are covered by shorter warranty periods, or have no warranty. Aseptico’s sole obligation under product warranty is (at its sole option and discretion) to repair or replace any defective component or product in part or whole. Aseptico shall be the sole arbiter of such action.

In the event of alleged defect under warranty, the purchaser is to notify Aseptico’s Customer Service Department promptly. Customer Service will provide instructions, usually directing that the product be returned for service. Shipment to Aseptico and the cost thereof is always the responsibility of the purchaser.

Accidental misuse, inappropriate installation, or failure to perform directed maintenance voids the warranty.

Aseptico does not assume, under this warranty, any risks or liabilities arising from the clinical use of its products, whether or not such use involves coincidental utilization of products manufactured by others. Deliberately defacing, modifying, or removing the serial number voids the warranty.

NOTE: In the interest of serving our customers more efficiently, customers receiving service on non-warranted repairs are expected to accept charges that are less than $450 without further notification.

Quality System
Aseptico’s Quality Management System is certified for full quality assurance by the Conformity Assessment Body Laboratoire national d’essais under the Medical Device Directive 93/42/EEC Annex II.3, according to ISO 13485, and also under the Canadian Medical Device Conformity Assessment System (CMDCAS).

Ordering policy
- Aseptico accepts Visa, MasterCard, Discover, and American Express.
- Open account is available only if credit is approved in advance.
- Freight costs are added to all invoices.
- Delinquent accounts are subject to 1.5% monthly interest, attorney’s fees, collection and court costs when needed to satisfy debt.
- Prices subject to change without notice.
- Service and Repair charges are billed on credit card. Customer is expected to accept charges up to $450 without advance notification. Minimum service/repair charge is $125.
- Please visit: aseptico.com/support/warranty-policies for additional warranty and repair policy information.

Sales Tax
Aseptico currently collects sales tax in the following states. However, more jurisdictions may be added at any time.
- California
- Florida
- Texas
- Virginia
- Washington

All other customers:
Customer is responsible for any applicable state sales or use taxes.

Sales tax exemptions:
Any customer exempt from state sales tax must provide Aseptico with their current exemption certificate. Certificates can be emailed to ar@aseptico.com

International Customers
Most Aseptico products are CE-marked and Health Canada licensed. However, customers should verify the status of any specific item(s) with their sales representative or local distributor prior to finalizing the purchase. Please contact your local Aseptico distributor for pricing and availability. Prices shown in the catalog are in US dollars. If you are unsure of the Aseptico distributor in your country, for specific ordering and payment policies, or for general product inquiries, please contact our International Sales Department at intl@aseptico.com.
Military Field Equipment

For over 25 years, Aseptico has partnered with the US Armed Forces and militaries around the world to develop the most comprehensive line of portable field equipment in the industry.
