INNOVATIONS FOR YOUR PRACTICE
This Year’s Top 5 Products

aseptico.com
Welcome to the Aseptico® 2020 Global Dental Catalog! Each year we improve our products to help clinicians perform dentistry more effectively — whether placing implants in a high-tech practice, or delivering care in remote regions of the world.

This year we have packed these pages with the best of the best. We invite you to compare Aseptico products to any other for quality, performance, innovative features, reliability and value.

Glenn Kazen
President

The Aseptico Global Dental Catalog is published annually by Aseptico Inc., 8333 216th Street SE, Woodinville, WA 98072. Aseptico is a global leader in dental equipment design and engineering. The company has endeavored to represent all current product information, specifications and pricing accurately. Product information may change. If you would like to communicate with Aseptico, the company welcomes your interest and invites you to contact us at 866-244-2954 or via aseptico.com.

7000 Series Motor for Oral Surgery

AEU-7000E

- Recommended for oral surgery
- Up to 4.95 Ncm of torque at 80,000 rpm
- Easy cleaning and maintenance
- Upgradeable software
- Console dimensions: 9.98” W x 9.42” L x 5.1” (25.4 x 24 x 13 cm)
- Universal voltage 100-240V

Oral Surgery Motor with On/Off Foot Control AEU-7000E $4,530

Options
- Carrying Case 410205-HNDL $740
- Micromotor with 10ft cable AE-230M-40EXT $1,090
- On/Off Foot Control AE-7PM $150
- On/Off Foot Control with 10ft cable AE-7PM-10 $170
- Variable Speed Foot Control with 10ft cable AE-70V2-10 $575
- 20° Electric Handpiece AHP-77W $1,738

Replacement Parts
- Variable Speed Foot Control AE-70V2 $525
- Micromotor with 6ft cable AE-230M-40 $970
- On/Off Foot Control AE-7PM $150
- Irrigation Bag Hanger Rod 461541 $29
- Power Cord 840079 $20
- Calibration Bur 461558 $14
- Handpiece Cradle 461561-01 $7
- Tubing and Accessories see page 23

7000 Series Motor for Implants and More!

AEU-7000E-70V and AEU-7000L-70V

- Recommended for implantology and rotary endodontics
- Places up to 80 Ncm (w/ Mont Blanc handpiece)
- Compatible with all implant systems
- Dentsply Sirona File Library included
- Upgradeable software
- Universal voltage 100-240V

Implant Motor w/ Variable Foot Control AEU-7000E-70V $4,750
LED Implant Motor w/ Variable Foot Control AEU-7000L-70V $5,300

Options
- Carrying Case 410205-HNDL $740
- Micromotor with 10ft cable AE-230M-40EXT $1,090
- On/Off Foot Control AE-7PM $150
- On/Off Foot Control with 10ft cable AE-7PM-10 $170
- Variable Speed Foot Control with 10ft cable AE-70V2-10 $575
- Mont Blanc Handpiece AHP-85MBFO-CX see page 14

Replacement Parts
- Fiber Optic Micromotor AE-230L-40 $1,070
- Micromotor with lift cable AE-230M-40 $970
- Variable Speed Foot Control AE-70V2 $575
- Calibration Bur 461558 $14
- Irrigation Bag Hanger Rod 461541 $29
- Power Cord 840079 $20
- Handpiece Cradle 461561-01 $7
- Tubing and Accessories see page 27

The 7000 Series Motor for Oral Surgery is powerful and efficient, with adjustable torque up to 4.95 Ncm for surgical applications. Smooth surfaces and rounded corners make wipe-down easy and prevent the buildup of dirt and debris.

Paired with a 1:2 Oral Surgery Handpiece, this impaction drill is perfect for third molar extractions, impacted teeth, bone contouring and other surgical procedures. The motor and handpiece quickly disconnect to be easily cycled out between procedures.

Available handpiece ratios 1:5, 1:3, 1:2, 1:1, 8:1, 20:1
4:1, 16:1, 31:1 Available by using dynamometer calibration.

Oral Surgery Motor with On/Off Foot Control AEU-7000E $4,530

Options
- Carrying Case 410205-HNDL $740
- Micromotor with 10ft cable AE-230M-40EXT $1,090
- On/Off Foot Control AE-7PM $150
- On/Off Foot Control with 10ft cable AE-7PM-10 $170
- Variable Speed Foot Control with 10ft cable AE-70V2-10 $575
- 20° Electric Handpiece AHP-77W $1,738

Replacement Parts
- Variable Speed Foot Control AE-70V2 $525
- Micromotor with 6ft cable AE-230M-40 $970
- On/Off Foot Control AE-7PM $150
- Irrigation Bag Hanger Rod 461541 $29
- Power Cord 840079 $20
- Calibration Bur 461558 $14
- Handpiece Cradle 461561-01 $7
- Tubing and Accessories see page 23

The 7000 Series Motor for Implants is the pinnacle of dental motor technology allowing dentists to accurately place any implant on the market today. Fully loaded with all the features every implant dentist needs, including an advanced calibration system, the 7000 Series is equally proficient at performing oral surgery, rotary endodontics or other procedures, making it a true multi-specialty solution.

Paired with a Mont Blanc Implant Handpiece, the Series 7000 allows for complete personalization, making it ideal to work with any implant system.

Available handpiece ratios 1:5, 1:3, 1:2, 1:1, 8:1, 20:1
4:1, 16:1, 31:1 Available by using dynamometer calibration.

Mont Blanc AHP-85MBFO-CX

The ultimate handpiece for implants. See details on page 14.

The dynamometer calibration system on 7000 Series motors gives dentists the ability to quickly and easily diagnose the health of a handpiece and verify that it is producing the correct torque for the application.
6000 Series Implant Motor

- AEU-6000-70V
  - Recommended for implantology and rotary endodontics
  - Places up to 50 Ncm (w/ Mont Blanc Handpiece)
  - 15-2,000 rpm with 20:1 implant handpiece
  - Control water flow, motor direction, torque and presets from the foot pedal
  - Reusable, autoclavable irrigation tubing.
  - No more buying costly disposable tubing!
  - Small footprint: 8.6” W x 9.2” L x 4.8” H (22 x 23 x 12 cm)
  - Universal voltage: 100-240V

The AEU-6000 is our best-selling implant motor because of its reliability and affordability. This versatile machine performs standard or mini implants and rotary endo with auto-stop-reverse. It can also be used as a back up for your restorative and oral surgery systems. No other motor on the market can give you these benefits at such an affordable price.

With upgradeable software, the AEU-6000 unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don’t have to buy a new set for each procedure. Five preset buttons can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

Available handpiece ratios: 1.5, 1.3, 1.2, 1.1, 8:1, 20:1

6000 Series Electrical Operative Motor

AEU-5000

- Attach to your air-driven high speed connection and use your own rheostat
- Electrical option for efficient and quiet restorative procedures
- Up to 200,000 rpm with high speed handpiece
- Powerful, high torque electric motor
- Intuitive design and operation
- Includes endo mode with auto-stop-reverse torque setting

The versatile and cost-effective operative motor is designed to convert a standard air dental delivery system into a powerful electric handpiece system for numerous dental applications.

The AEU-5000 features endo functionality, fiber optic intensity adjustment, a compact and easy-to-clean console, a large backlit display, intuitive user interface, and a 40,000 rpm brushless autoclavable micromotor. Innovative LED technology produces the brightest illumination you’ll find in a dental handpiece.

Available handpiece ratios: 1.5, 1.2, 1.1, 5:1, 8:1

What Distinguishes an Aseptico System?

You will often hear us speak about an ‘implant system,’ ‘oral surgery system’ or ‘endo system.’ What makes it a system is that multiple components are working together – motor, handpiece, surgical or other irrigation. Any combination of components can make a system, but what makes it an Aseptico system, are three important differentiators:

1. At the core of each system is a high quality American-made Aseptico dental motor — lauded for quality, innovative features, high-performance and durability.
2. Each handpiece that we recommend for you has been thoroughly researched and tested for ultimate performance with the Aseptico motor you select.
3. Excellence and Value: At Aseptico, good isn’t enough. We offer dental professionals excellence and value in every system that we create. Compare features, performance and price to any other leading brand. Aseptico gives you expertise, exceptional savings, long-lasting value and reliability for your practice.
The Advanced Rotary Endodontic Motor AEU-27A

- Lightweight motor and cable
- Upgradeable software
- Weighted omnidirectional foot pedal
- Includes all features of America’s most popular endo motor, The Endo DTC®

The Advanced Rotary Endodontic Motor features digital torque control with auto-stop-reverse to prevent file separation and automatic calibration to test both the motor and handpiece for accurate performance and consistent operation. Easy to operate, with an autoclavable brushless motor, this motor also features onboard file library, five programmable memory locations, and preset options that allow single file, file series, or custom file series. Upgradeable software assures return on investment. Includes weighted omnidirectional foot pedal.

Available handpiece ratios
1.5, 1.1, 8:1, 16:1

Endo Motor AEU-27A $1,750

Replacement Parts
Micromotor AE-250-30 $560
On/Off Foot Control AE-7PM $150

MicroNiTi series endodontic handpieces recommended see page 17

Don’t forget the HandiDam®
Created by Aseptico, it’s the original pre-framed rubber dam. Easier and more efficient—it’s the only rubber dam that allows access to suction or take x-rays while isolation and clamps remain in place. See page 30.

Endo DTC® Rotary Motor AEU-25

- Most sold, most trusted endo motor in America
- Dentsply Sirona File Library included
- Auto-Stop-Reverse functionality

The Endo DTC Rotary Endo Motor is America’s most popular endo motor because it is a proven reliable performer. Many dentists did their endodontic training on this system and they still prefer it today. And why not? There is so much packed into this small footprint at such an affordable price: advanced digital torque control technology with auto-stop-reverse helps prevent file separation, five programmable memory buttons, onboard file library, integrated calibration system, autoclavable 30,000 RPM brushless micro motor, and upgradeable software. Pair with a MicroNiTi series handpiece to make the perfect rotary endo system.

Available handpiece ratios
1.5, 1.1, 4:1, 8:1, 16:1, 64:1

Endo DTC® AEU-25 $1,695

Replacement Parts
Micromotor AE-4B-30 $640
On/Off Foot Control AE-7P $150

Recommended handpieces see page 17

The AEU-27A is the most versatile, safe and economical motor available anywhere in the world, at any price. That’s why I customized the AEU-27A with rpm and torque presets for the MounceFiles in both Controlled Memory and Standard Nickel Titanium. Upgradeable, simple to use, and ergonomic, it sets the standard for electric endodontic motors for many years to come.

— Richard Mounce DDS, Mounce Endo

Foot control included

MicroNiTi Handpieces $570 - $770
We recommend the MicroNiTi series of endodontic handpieces. Select from Minihead or Microhead models; available in 16:1 or 8:1 gear ratios. See page 17.
NEW Product!
Heavy Duty Brushless Lab Motor

AEU-16SS-120
- For heavy acrylic use
- One piece micromotor handpiece
- Brushless 50k rpm micromotor
- Consistent torque even at low speeds
- Customizable preset memory storage
- Self-diagnostic error display
- Available in 110V
- Includes Variable Speed Foot Control

The Heavy Duty Brushless Lab Motor is newly upgraded to provide more power, performance, durability, and portability. The brushless 50k rpm micromotor can produce up to 8.3 Ncm of torque. This solid and sturdy unit can be operated in either vertical or horizontal placement. Easy to read digital display, preset memory storage, hand/foot change button and self-diagnostic error display provide comprehensive control and operation.

Light Duty Lab Motor

AEU-10SS
- For light to medium acrylic use and low speed prophy
- Versatile E-type connection with straight handpiece
- 20k rpm micromotor
- Console with adjustable speed and direction
- Available in 110V or 220V
- Includes AE-7P On/Off Foot Switch

The Light Duty Lab Motor is one of the finest motor and handpiece combinations available to the professional. Engineered to provide many years of reliable service, this powerful lightweight motor is the perfect choice for making chairside adjustments. Made in USA.

Options
- Optional Variable Speed Foot Control AE-14A $310

Replacement Parts:
- 1:1 Handpiece AHP-101 $320
- Micromotor AM-103B $195
- On/Off Foot Switch AE-7P $150

Battery Powered Portable Lab Motor

AEU-03M1B
- Versatile E-type connection with straight handpiece
- 22k rpm micromotor
- On/Off Foot Switch
- Dual voltage
- Includes a high torque motor, handpiece, and long-lasting Li-ion battery.

The Battery Powered Portable Lab Motor is the smart solution for simple portable dentistry. Made to be mobile, this surprisingly powerful lab motor allows you to work on the go.

Portable Lab Motor AEU-03M1B $670

Replacement Parts:
- 1:1 Handpiece AHP-101 $320
- Micromotor AE-5M1-25 $145
- Foot Switch AE-7M1 $18

The Aseptico Battery Powered Portable Lab Motor is surprisingly powerful! Ideal for lightweight lab benchwork or for performing prophys in the field. See page 11.

Electric Dental Motors & Handpieces

Update on the Latest Technical Advances and Why They Matter

What’s the latest in electric dental motors and handpiece technologies? The Aseptico Global Dental Catalog team asked Scott Lewallen, the company’s senior engineer and dental motor innovator.

“Dental implants are driving many of the innovations in electric dental motors today. As implant designs evolve, motors also need to advance,” said Lewallen.

Dentists working with Aseptico implant motors have the ability to place every type of implant on the market today, from mini to conventional. As new implants are introduced, they will be able to place those as well. Aseptico is a trusted OEM partner to a growing number of the world’s leading dental implant manufacturers. “It’s profoundly rewarding to see how implants are significantly improving patients’ lives,” added Lewallen.

Aseptico introduced its first dental electric motor in 1989 and has been trailblazing ever since — engineering improvements large and small that have contributed to better quality dental motors throughout the world. The company introduced the world’s first rotary endodontic motor in 1995 — revolutionizing the field of endodontics. Aseptico further advanced rotary endo technology in 1999 when it introduced its AEU 201TR endodontic motor with Intelligent Torque Reduction and Auto-Stop-Reverse functionality. In 2007, Aseptico was the first to introduce an all-in-one electric motor that could perform restorative, oral surgery, implant, and rotary endo applications.

The all-in-one platform, found in Series 6000 and Series 7000 Motors, provides unique clinical benefits to both general practitioners and specialists, enabling them to replace multiple motor systems with one system that can do it all.

The company continues to innovate and drive advancements with important clinical benefits. For example, the handpiece calibration system on Aseptico 7000 Series Motors incorporates a function in its dynamometer that performs a torque efficiency test on the implant contra angle. This allows dentists to quickly and easily ensure that the speed and torque shown on the dental motor display accurately represents the performance they are receiving at the bur. “It’s important to know if you really placed that implant at 50 Ncm or 70 Ncm. It matters,” says Lewallen, “There are other dental motors that feature dynamometers, but nothing matches the sophistication of Aseptico’s technology.”

As for dental handpieces, Aseptico sets high standards for performance and carries a specially curated range of handpieces, known as Aseptico Select, which are suitable for most dental applications. “Our engineering team follows a formal testing process. We evaluate the performance and ergonomics of all the leading brands and test each handpiece according to a variety of performance characteristics. We review the results with the product selection team and, together, we determine which ones will truly be the most beneficial to Aseptico customers,” said Lewallen. “We want our customers to know that they can rely on the products we sell, including those not made by Aseptico.”

Next to the catalog this year, Aseptico is proud to introduce the MK Dent handpiece line. Modern, elegant and exceedingly high-tech, they are a joy to work with.

Check them out on pages 20–22.

When software upgrades are introduced, they are provided free of charge on an SD Card for easy updating on Aseptico 7000 Series and 6000 Series Motors assuring that your dental motor is always up to date — for the life of your system!

For clinical safety and security purposes, upgrades are provided as read-only files for your dental motor.

To upgrade, simply turn off the motor, insert the card until it clicks in, and turn the motor back on. The display will inform you that the upgrade memory card is detected and is ready to reprogram your motor. The clinician must select ‘Yes’ to confirm the upgrade. During the upgrade process, a status bar displays progress. When programming is complete you can eject the card and the motor will reset with a normal power-up screen displayed. In only a few minutes, your dental motor is up to date on all the latest advances.
Mont Blanc Implant Handpieces

The Mont Blanc Implant Handpiece is crafted from stainless steel and titanium, making it lightweight and durable. It features smooth surfaces that improve infection control and ensure easy cleaning. Precision ball bearing construction reduces friction to prevent overheating during surgical procedures.

- Electric
- 80 Ncm maximum torque
- 20:1 reducer
- 15 - 2,000 rpm
  (at 40k rpm micromotor)

Impulsion Implant Handpiece

AHP-85P-I
- Electric
- 55 Ncm maximum torque
- 20:1 reducer
- 15 - 2,000 rpm
  (at 40k rpm micromotor)

Rated to a max torque of 55 Ncm, the Impulsion Dental Implant Handpiece offers great value. This reliable handpiece uses a sleeve bearing, making it a good handpiece for drilling an osteotomy at an affordable price.

Impulsion Handpiece- Push Button AHP-85P-I $1,050
AseptiSpray™ Cleaner and Lubricant AHP-09 $32

Excellent handpieces abound in 2020! Advances in manufacturing mean handpieces are better than ever. We’ve searched the world over and found the optimal handpiece for every dental purpose – oral surgery, dental implants, endodontics and restorative.

The high-quality handpiece offering in this year’s Aseptico Global Dental Catalog includes Mont Blanc® and Impulsion® handpieces for dental implants, Anthogyr and W&H handpiece selections for oral surgery, and the MicroNiTi® series of endodontic handpieces.

Brand new this year, is our line of electric and air-driven handpieces, Aseptico by MK Dent, a result of a special manufacturing collaboration with MK Dent GmbH. These fine, new, high-tech restorative handpieces are exceptional performers that you will be proud to own.

Please take advantage of the extensive knowledge of our team members. Our goal is to help you make the best selections for your practice.

Surgical Handpieces

1:1 Straight Surgical
AHP-64
- Electric
- 1:1 low speed
- 600 to 30,000 rpm (w/ 30k rpm micromotor)
AHP-77W
- Electric
- 20° bend for optimum comfort
- 1:2 increaser
- 600 to 90,000 rpm (w/ 40k rpm micromotor)
- Requires 70 mm bur

20° Surgical
AHP-77W
- Electric
- 20° bend for optimum comfort
- 1:2 increaser
- 600 to 90,000 rpm (w/ 40k rpm micromotor)
- Requires 70 mm bur

45° Surgical
AHP-79W
- Electric
- 1:2.7 increaser
- 810 to 108,000 rpm (w/ 30k rpm micromotor)

Minihead Endodontic
AHP-88MN and AHP-62MN
- Electric
- Swing latch
- Speed range (w/ 30k rpm micromotor)
- 8:1 — 40 to 3,600 rpm
- 16:1 — 20 to 1,800 rpm

Microhead Endodontic
AHP-88MNP and AHP-62MNP
- Electric
- Push button
- Speed range (w/ 30k rpm micromotor)
- 8:1 — 40 to 3,600 rpm
- 16:1 — 20 to 1,800 rpm

Anthogyr MicroNiTi Minihead Endodontic
Handpiece has a swing latch head and provides unrivaled accuracy, whether it is being used with a rotary or reciprocating motor. The mini-head size allows for excellent access and line of sight during procedures. Made for nickel-titanium endodontic files, the MicroNiTi Minihead is compatible with all ISO rotary endo files.

8:1 AHP-88MN $570
16:1 AHP-62MN $720

Anthogyr MicroNiTi Microhead Endodontic
Handpiece has a push button head and provides the same unrivaled accuracy as other MicroNiTi series handpieces, whether it is being used with a rotary or reciprocating motor. The micro-head size allows for exceptional access and line of sight during procedures. Made for nickel-titanium endodontic files, the MicroNiTi Microhead is compatible with all ISO rotary endo files.

8:1 AHP-88MNP $660
16:1 AHP-62MNP $770

W&H 45° High Speed Surgical Handpiece
is ideal for precise tooth separations and apical resections. The 45° head allows for optimum access to the posterior of the mouth. Available in non-fiber optic and self-generating fiber-optic options, this handpiece comes complete with a triple-spray head that guarantees sufficient cooling of the surgical bur and site.

20° Electric Handpiece AHP-77W $1,738

W&H Cleaner and Lubricant AHP-10 & AHP-10N $70
Irrigation Clip AHP-77W-CLP $60

45° Electric Handpiece w/LED AHP-79W-FO $1,951

W&H Cleaner and Lubricant AHP-10 & AHP-10N $70
Irrigation Clip AHP-77W-CLP $60

45° Electric Handpiece AHP-79W $1,494

I rely on Aseptico dental motors and handpieces for consistent reliability and superb performance.
— Ara Nazarian DDS DICOI
## 1:5 Restorative

**AHP-72MK-FO**
- Electric
- Internal irrigation
- 1:5 Increaser
- Fiber optics
- Max 200,000 rpm
- Max volume 62 dB
- Perfect for high speed dentistry with your electric operative motor

**AHP-96MK**
- Air-driven
- Internal irrigation
- Non-optic
- Max 320k rpm, 24 watts
- Max volume 62 dB
- Perfect for high speed dentistry

---

## 4-Hole Restorative

**AHP-65TI-FO and AHP-65TI**
- Electric
- External irrigation
- 1:3 Increaser
- Optional fiber optics
- Max 120,000 rpm
- Perfect for high speed dentistry with your implant/surgical motor

**AHP-65TI**
- Electric
- External irrigation
- 1:3 Increaser
- Optional fiber optics
- Max 120,000 rpm (w/ 40k rpm micromotor)

Simple to use technology, developed for what you do every day. The 4-Hole High Speed Handpiece features a clean, elegant shape and a virtually scratch proof smooth chrome surface. Manufactured using proprietary laser balancing technology, this handpiece delivers 24 watts of torque and features a premium cartridge for enduring precision and prolonged life.

**AHP-96MK**
- Air-driven
- Internal irrigation
- Non-optic
- Max 320k rpm, 24 watts
- Max volume 62 dB
- Perfect for high speed dentistry

---

## 5-Hole Restorative

**AHP-97MK**
- Air-driven
- Internal irrigation
- Fiber optic glare-free, color accurate illumination
- Max 320k rpm, 24 watts
- Max volume 62 dB
- Perfect for high speed dentistry

Excellent for high speed dentistry in-office or with a mobile pneumatic delivery system. More power, better sound, spectacular control. The MK Dent 6-pin High Speed Restorative Handpiece is built for the pro user who demands best in class. Reverse flow protection minimizes the entry of contaminants into the head. Fiber optics provide color-accurate illumination. Supremely finished with a scratch-resistant titanium surface. Dentists will enjoy working with this exceptional handpiece.

**AHP-82MK**
- Air-driven
- Internal irrigation
- Fiber optic with LED color accurate illumination
- Max 350k rpm, 25 watts
- Max volume 55 dB

**AHP-82MK-QD**
- Air-driven
- Works with LED bulbs and glass rod fiber optics
- Color accurate

---

## 6-Pin Restorative

**AHP-82MK**
- Air driven
- Internal irrigation
- Fiber optic glare-free, color accurate illumination
- Max 320k rpm, 24 watts
- Max volume 62 dB
- Perfect for high speed dentistry

**AHP-82MK-QD**
- Air driven
- Works with LED bulbs and glass rod fiber optics
- Color accurate

---

### With an external irrigation port and 1:3 increaser gearing, the AHP-65TI Restorative Electric High Speed Handpiece makes any surgical motor with irrigation into a restorative powerhouse. Ergonomic and lightweight design allows for optimum comfort during your procedure.

We Are Committed To Excellence In Everything We Do And Every Product We Sell
2020 Top 5 Products
helping clinicians perform dentistry more effectively

With so many dental products, and so many new advancements in equipment, how do you know which equipment is the best or what brands to trust? We’ve got the answers.

When you shop the Aseptico Global Dental Catalog, you can rest assured that all products featured are exceptional, rigorously qualified and performance tested. You can trust that any Aseptico product you choose will be a quality addition to your practice.

So what are the Top 5 products this year that are noteworthy in their value, performance and overall excellence for helping clinicians perform dentistry more effectively? It wasn’t easy to select just five! There are some rock star products that deserve to be included such as the 6000 Series Motor — an exceptionally capable workhorse that can be used as an implant, oral surgery, or endo motor. And then there is the Spotter Smart Implant Detector, the smartest way to find buried implants that helps preserve soft tissue. Each of these products have incredible attributes and are worthy of your consideration.

1. **7000 Series Motor & Mont Blanc Handpiece**
   - It has earned the reputation as the best, most comprehensive implant system in the world. It gives you the exact power you need to perform precise, accurate placement of implants to the Newton-Centimeter (Ncm). It’s highly capable for oral surgery and rotary endo too!

2. **Penguin RFA Implant Stability Monitor**
   - Allows you to take quick, easy ISQ readings that give you an accurate picture of dental implant micro motion on a simple 1-100 scale. Measuring micromotion is known to be a more accurate way of determining whether osseointegration is occurring compared to torque tests.

3. **Calaject™ Computer-Assisted Dental Anesthesia System**
   - This advanced next generation local anesthesia system makes it easy to give painless injections of all types — even difficult injections like palatal injections! Patients fear injections. Problem solved with Calaject™.

4. **Powered Trolley Cart**
   - Practical, sturdy and super fun to drive. It turns with ease, fits into almost any space and has all the right features that dental practices need.

5. **Express Portable Dental System**
   - Just plug it in anywhere in the world and you have everything you need to perform dentistry or dental hygiene. Fully configurable to meet your requirements, the Express will reliably serve you wherever you provide care.

The final selection for this year’s Top 5 products was a competitive affair, with each team member making the case for their personal top picks. After final tally and review, we’re proud to introduce the Aseptico Global Dental Catalog 2020 Top 5 Products to you. We hope you enjoy this year’s catalog and invite you to call us for friendly and helpful advice and guidance. Our product professionals have years of experience and are dedicated to helping you succeed.

#1
7000 Series Motor & Mont Blanc Handpiece
- makes the most comprehensive implant system in the world.
- Read more about the series on pages 4 and 5.

#2
Penguin RFA Implant Stability Monitors
- for accurately measuring osseointegration. Read more on page 28.

#3
Calaject™ Computer-Assisted Dental Anesthesia System
- Read more about computer-assisted anesthesia with Calaject™ on page 31.

We hope you enjoy this year’s catalog and invite you to call us for friendly, expert recommendations. Our seasoned professionals are committed to helping you succeed.

#4
Aseptico Powered Trolleys
- are sturdy and fun to drive. Read more about Aseptico Trolleys on page 37.

#5
Express Portable Dental System
- Read more on page 42.

The Express Dental System
- is the world’s most popular portable dental system. Read more on page 42.
How do YOU find buried implants?

**Smart Implant Detector**

**SPT-5I11001-KIT**
- Non-invasive, no exploratory flap needed.
- Painlessly and accurately locate implants covered by gum tissue!
- Locate buried implants quickly and easily
- Minimize the recovery time for the patient
- Works with any titanium implant

By moving the wand over the suspected site of the implant and watching the guidance LEDs on the handle light up, you can locate a buried implant in seconds. Once located, the pinhole at the center of the sensing head can be used to mark the exact center of the implant. You are now ready to punch and reveal only the implant, preserving the maximum amount of soft tissue and reducing healing time!

Spotter SPT-5I11001-KIT $500
Sensors 5/PKG SPT-5I11101 $130

**Penguin RFA**

Implant Stability Monitor

**RFA-55002-MULTI**
- Accurate ISQ measurement for greater confidence determining when to load the implant
- Cordless, lightweight and simple to use
- Half the price of competing ISQ devices
- Two-year warranty, made in Sweden
- MultiTepgs can be autoclaved up to 20 times!

The Penguin RFA is the affordable solution for Implant Stability Quotient (ISQ) measurements. Developed by the same team who brought Resonance Frequency Analysis (RFA) to dentistry, the Penguin RFA delivers accurate results using reusable, calibrated MultiTepgs. In some cases, MultiTepgs may be used across different brands for an even better return on investment.

PenguinRFA RFA-55002-Multi $1,990
Penguin MultiTepg RFA-00000* $32
*Part number varies by implant platform
Replacement MultiTepg Driver RFA-55003 $21

**The Penguin RFA is fast, easy and predictable to use when checking the stability of a dental implant. Whether checking the ISQ of an implant at immediate placement following an extraction or before definitive restoration impressions, the Penguin RFA is very effective.**

Dental Innovations Proven Products

**HandiDam® pre-framed dental dam**

- Pre-framed, flexible design facilitates access to the oral cavity for suction, X-ray films, or digital X-ray sensors
- Superior elasticity and tear-resistance
- Saves time—eliminate the need to remove and replace traditional dam during the procedure
- Ergonomic and comfortable for greater patient acceptance
- Meets FDA powder-free standard
- Extremely low protein content reduces patient irritation (<50 micrograms)
- Available in Latex (Blue) or Latex-Free (Mauve)

**Dental Dam Clamps**

Our five most popular clamps. See our full selection at aseptico.com

- **K-8A** for lower molars, with strong festooned beaks
- **K-9** most popular anterior clamps
- **K-5** for lower molars
- **K-9-2** most popular anterior clamps
- **K-211** universal labial cavities on anteriors

**Recommended for HandiDam®**

**HandiDam® Latex (Blue)**

- Qty 20, I-708M $38
- Qty 100, I-708M-100 $150

**HandiDam® Latex-Free (Mauve)**

- Qty 20, I-708F $59
- Qty 100, I-708F-100 $245

**Dental Dam Punch**

- Ivory Style Punch I-19 $180

**Dental Dam Forceps**

- University of Washington Style Forceps I-14 $120

**Calaject™ Computer Assisted Anesthesia**

**CAL-2118**

Finally, you can both relax during the injection! With Calaject™ computer-assisted local anesthesia, you’ll deliver anesthetic below the pain threshold every time, resulting in painless injections for your patients. Calaject™ provides superior anesthesia delivery for all injection types.

Designed, Engineered
And Manufactured To A
Superior Quality Standard
Compricart II Delivery System

**ADU-20B**
- One high speed and one low speed handpiece connection
- High volume evacuator and saliva ejector
- Large stainless steel instrument tray (13.5” x 9.75”)
- All day water system with two liter self-contained water bottle

Roll the Compricart II Dental Cart from room to room with ease! Great for hospitals and expanding dental offices, the simple controls of the Compricart II make operation stress-free. A compact design, ample work surface, stainless steel instrument tray, integrated water supply, and venturi suction (high volume and saliva ejector) round out the features of this versatile platform. Just connect to an air source — no central vacuum required! Including the optional AWS-1C allows an external scaler to use the cart’s water supply.

Lightweight Portable Delivery System

ADU-04ST
- NEW compact design and case under 15lbs (6.8kg)
- 3-way air/water syringe
- Instrument tray

Lightweight Portable Delivery Systems from Aseptico offer customizable handpiece and vacuum options for restorative dentistry or dental hygiene needs. These super lightweight systems are sturdy and strong, weighing in at only 15 pounds and can be configured just as you want them. A high-quality stainless steel instrument tray sits atop the system for ultimate efficiency in a compact footprint.

Air Pac III Portable Compressor
AA-100-110 (not available in Canada)
- 1.0 horsepower, 100 psi oil-less motor
- Built-in wheels and pull handle
- Weight: 46 lbs. (20.87 kg)

The Air Pac III Portable Compressor is a reliable 1.0 horsepower/100 psi air compressor that delivers 3.1 CFM at 40 PSI. Built by Aseptico to stand-up to heavy use and travel, the compressor is secured in its own super duty carrying case with built-in wheels and pull handle. The Air Pac III includes an air storage tank and automatic pressure switch control.

Air Pac III Compressor AA-100-110 $1,995

Power Trolleys

ATC-12V2 and ATC-15
- Keeps equipment organized and solves operatory space concerns
- Storage bin for foot pedals or power strip
- Dual outlet with coiled AC power cord
- Adjustable height to easily store under a counter: 26.4” to 37.4” (67-95 cm)
- Four shelves w/ 3 removable stainless steel trays

Aseptico Powered Trolleys
- Give dental teams the ability to easily roll dental motors, scalers, lasers, surgical systems or other electrical equipment from operatory to operatory.
- Available in large and standard sizes, each Powered Trolley is adjustable in height and features four shelves of storage with high quality removable stainless-steel trays that fit securely into each shelf. High-quality, sturdy trolleys move and turn with ease and fit into almost any small space.

Standard Powered Trolley ATC-12v2 $870
Cart size: 26.4” x 15.75” x 16.5” (67-95 x 40 x 42 cm)
Tray size: 11.3” x 9” (28.8 x 22.8 cm)

Large Powered Trolley ATC-15 $1,095
Cart size: 26.5-38” x 19.5” x 19.75” (68-97 x 50 x 50 cm)
Large Tray: 15.4” x 11” (39.1 x 27.9 cm)

Airpac III

Portable Compressor
AA-100-110 $840
Suction Ejector AA-21ST $690
5-hole Fiber Optics AA-19LED-04 $610
NEW! 6-pin Fiber Optics AA-19LEDG-04ST $210
*Will not function with incandescent bulbs. Consult your Aseptico sales rep for details.

High Volume Suction AA-21ST

Standard Powered Trolley ATC-12v2 $870
Cart size: 26.4” x 15.75” x 16.5” (67-95 x 40 x 42 cm)
Tray size: 11.3” x 9” (28.8 x 22.8 cm)

Aseptico Powered Trolleys feature two heavy duty electrical outlets that are certified to safety standards and a sturdy storage bin designed to hold foot pedal or other items.

The Air Pac III Portable Compressor with the Lightweight Portable Delivery System, you have a powerful customized solution that’s easy to pack and transport and a quieter working area compared to all-in-one portable dental systems.

- Water port for caviton/scaler
- High capacity 1 gallon waste container
- 110V or 220V switchable voltage
- 44-48 lbs (20-21.8 kg)
- 10.5” x 14.5” x 24” (27 x 36 x 61 cm)

Aseptico’s most popular portable dental systems, the Express Air and Express II portable dental systems are fully self-contained, lightweight, reliable performers that provide everything a dentist or hygienist needs to perform effectively in the field. These powerful units feature up to two air-driven handpiece connections, high volume and saliva ejector suction, internal water reservoir, three-way syringe, and integrated air compressor. They are transported using a pullout handle and built-in wheel assembly. The system’s compact size allows for convenient storage, while the impact-resistant case makes the Express ideal for any field environment. Designed for global use, all Express systems are compatible with 110V or 220V power sources and come in under the airline baggage weight limit.

Express Air – features variable rheostat foot pedal. In the Express Air dental system, the handpiece only operates when the variable rheostat foot pedal is depressed; handpiece operates independently from suction and 3-way syringe.

Express Air one handpiece connection ADU-17A $4,795
Express Air two handpiece connections ADU-17X2 $4,995

Express II – features on/off electric foot switch. In the Express II dental system, all components are activated by the on/off foot switch. This configuration is sometimes desirable for special needs patients or other specialized applications. Please call for more information.

Express II one handpiece connection ADU-17X $4,795
Express II two handpiece connections ADU-17X2 $4,995

Fiber Optic Upgrade Kits
- 5-hole AA-19LED-04 $610
- 6-pin AA-19A-06 $610
- NEW for 5-pin LED handpieces AA-706GE-0410* $210
*Will not function with incandescent bulbs.

Transport III Portable Dental System
AEU-525S and AEU-525
- High torque electric motor with restorative and endodontic programs
- Fiber optic electric handpiece connection
- High volume evacuator and saliva ejector
- Quiet, intuitive, powerful
- Built-in maintenance free compressor
- Water port for caviton/scaler
- Dual voltage
- Optional fiber optic piezo scaler
- 5.7-6.3 lbs (25.9-28.6 kg)
- 17.9” x 10.4” x 22.1” (45.5 x 26.4 x 56.1 cm)

The Transport III is Aseptico’s quietest portable dental system. Features include noise reduction technology, an intuitive user interface, and 40k rpm brushless autoclavable micromotor. It is easy to set up, operate, and tear down. All components fit neatly into the impact resistant carrying case with inset handle and wheels.

Delivery module and user interface panel mount externally, placing controls and instruments at a comfortable level. Dual level fluid sensors alert the user when the waste tank is 85% full for better procedure planning. The Transport III will then shut off the compressor before the tank exceeds capacity. The externally mounted waste container and optional amalgam separator means faster and cleaner waste disposal.

Transport III w/Scaler AEU-525S $9,995
Transport III AEU-525 $8,995

Options
- Amalgam Separator Kit AA-525AMAL $640
- Micromotor w/5’ cable AE-240-40 $995
- On/Off Foot Control with 10ft cable AE-7PM-10 $170

Replacement Parts
- Micromotor w/5’ cable AE-240SC-40 $995
- Waste Tank Assembly 336063 $600
- On/Off Foot Control AE-7PM $150
- Power Cord 8401-40 $37
- Water Reservoir tank H 700471 $12

Replacement Scaler Tips For AEU-525S Only
- Sim Universal ASC-10-PE38 $158
- Thin Subgingival ASC-10-PE37 $136
- Power Universal ASC-10-PE39 $117

ASEPTICO PORTABLE SYSTEMS ARE MADE IN THE USA. CALL TODAY! 866.244.2954
Taskforce Portable Dental System

ADU-12DCE
- Lightweight and easy to carry, under 33lbs
- Two air handpiece connections
- Powerful saliva ejector vacuum
- Built-in maintenance free compressor
- Water port for castron/syringe
- 110V or 220V switchable voltage
- 12.5” x 17.5” x 17.5” (31.8 x 44.5 x 19.1 cm)

The most compact pneumatic portable dental system, the Taskforce represents the best value on the market. At 32.6 pounds the Taskforce is easily carried from location to location. This unit includes two air-driven handpiece connections (high speed / low speed), low volume suction, and air water syringe, making it the ideal system for mobile hygiene. Simple and easy to use, the Taskforce can be set up or put away in just minutes.

Taskforce ADU-12DCE $3,650

Optional Accessories

Airpac III Portable Compressor

AA-100-110
- 1.0 horsepower, 100 psi oil-less motor
- Air delivery 3.1 CFM at 40 PSI
- Built-in wheels and pull handle
- Available in 110V
- Not available in Canada
- Weight: 46 lbs. (20.87 kg)
- Size: 17.93” W x 22.06” L x 10.43” H (45.5 cm W x 56.0 cm L x 26.5 cm H).

The Air Pac III Portable Compressor is a reliable 1.0 horsepower, 100 psi air compressor, that delivers 3.1 CFM at 40 PSI. Built by Aseptico to stand-up to heavy use and travel, the compressor is secured in its own super duty carrying case with built-in wheels and pull handle. The Air Pac III includes an air storage tank and automatic pressure switch control.

110V Compressor AA-100-110 $1,995

See more details and description on page 36.
I first discovered [this mobile cart] when I was looking for mobile equipment for my new Urgent Dental Care Practice. I did not want the extra expense of [installing] lines and plumbing for a full compressor and vacuum.

These units are user-friendly and self-contained. I was so confident about the quality of this dental unit, I had my military unit order one for our Dental Readiness and Mobility mission.

— Robert Byrd DDS

This is a population that would not receive care without this equipment. They have a very hard time getting out. They have physical and mental limitations, and without Aseptico's equipment, I would not be able to provide this vital care in the nursing home.

— Michelle Caldier DDS

The AMC-25 is the ideal solution for delivering care at any field location with electrical power such as nursing homes, hospitals and dental practices that need an additional operatory without plumbing.

Mobile Operatory AMC-25 $12,495

Options
- Integrated Electric Motor 330674 $1,650
- Curing Light AA-25CMLM-CK $1,500
- 2 Fiber Optic HP Connections
  - 5-Hole ISO-B AA-10LED-25CK5 $1,175
  - 6-Pin ISO-D AA-19A-25CK $1,175
- Posto Scaler A010-25CKL $1,500
- Amalgam Separator AA-20AMAL-CK $745
- Height Adjustable Pivot Arm AA-302 $445
- Hospital Kit (internal air, water and vac connections) AA-25HK $1,150

Recommended Handpieces
- Electric see page 21
- Air-driven see page 32

Replacement Parts
- Micromotor AE-240SC-40 $955
- Disc Foot Control w/Water Toggle AA-431W $95

- TL Water Reservoir – Clear 730631-10 $65
- TL Water Bottle – Opalite (each) 730471 $12
- Scaler 730745 $25
- Amalgam Canister 730595 $130

The AMC-25 Self-Contained Mobile Operatory provides an array of standard and optional dental equipment features and functions designed to serve a wide range of dental applications—all conveniently packaged into a self-contained transportable cart.
NEW Product!

Self-Contained Mobile Operatory

AMC-15

- Fully self-contained dental cart with built-in air compressor
- No plumbing required
- Automatic handpiece controls for 3 air-driven handpieces
- Connections for two high speed handpieces with air and water
- Connection for one low speed handpiece with air
- 3-way air/water syringe
- Adjustable High Volume (HVE) and low volume suction
- Amalgam solids trap
- Independent ½ HP compressor and vacuum pumps with venturi boosters
- Aluminum tank for rust-free air supply
- Designed to optimize work flow and efficiency
- 1 gallon (3.78 L) self-contained waste storage with automated overflow protection
- Available with 115V or 230V power supply
- Operating pressure 60 psi
- Weight 139 lbs (63 kg)
- Dimensions 23.5” W x 30” L x 36.5” H (68 x 76.2 x 92.3 cm)
- High volume vacuum 6.0 SCFM @ 0 Hg, 3.6 SCFM @ 4 Hg

Brand New for 2020, the AMC-15 Self-Contained Mobile Operatory can perform general dentistry and endodontic procedures—all with no connection to air or plumbing. Just fill the two 1-liter water supply bottles and power with either 115V or 230V and you’re fully operational with two high speed handpieces, one low speed handpiece, high volume and low volume suction, and amalgam separator. Engineered to provide many years of reliable service, the AMC-15 is easily moved and sets up to make an extremely efficient instant operatory. Add the height-adjustable Auxiliary Arm with Accessory Tray for super efficiency.

An excellent system for use in nursing homes or other institutional settings or dental practices needing a fully equipped operatory at low cost.

- Two 1-liter Water Bottles 730471 $13
- Wet/Dry Foot Control AA-43W $95
- 115V Power Cord 10’ Hospital Grade 840049 $37
- 230V Power Cord 2.5m Euro 840067 $11

Handpieces sold separately

Aseptico Field Equipment — In Service All over the World

Field dentistry demands specialized equipment that stands up to the rigors of deployment and performs reliably for many missions.

For more than 30 years, Aseptico has partnered with the US Armed Forces and militaries throughout the world to develop the most comprehensive line of portable field equipment on the planet.

Download our entire catalog of Military Field Equipment or inquire about Aseptico’s capabilities to design and manufacture the specialized equipment that you require.

FOR EXCELLENCE IN DENTAL FIELD EQUIPMENT, CALL 800.426.5913
www.aseptico.com/military
Email: gov@aseptico.com
Aseptico makes the smallest, lightest weight, most efficient equipment I have ever utilized. We traveled to the Mississippi Gulf Coast following Hurricane Katrina. We treated children from New Orleans and the Mississippi Gulf Coast using Aseptico equipment. It functioned without problems in an extreme environment.
— Richard L. Smith DMD

AseptiStool
ADC-08
• Set-up and store in seconds
• Includes padded case – no loose parts to misplaced!
• Adjustable seat height: 19” - 22” (48.3-55.9 cm)
• 15 lbs (6.75 kg)
• Padded carrying case: 18” x 22” x 8” (48 x 53 x 23 cm)

Durable, adjustable and foldable, the AseptiStool Portable Dental Stool is the perfect seating solution for any clinician. Its one-piece design sets up or stores in seconds, and it swivels on four casters for easy mobility during treatment. It is height adjustable, lightweight, and folds up for simple storage in the included padded travel case. Made in USA.

AseptiStool ADC-08 $750
Replacement Padded Carrying Case 410093 $150

Hydraulic AseptiStool
ADC-10
• Easy set-up and storage
• Includes padded case
• Hydraulic adjustable height: 18” - 25.5” (45.7 - 64.8 cm)
• 19 lbs (8.6 kg)
• Padded carrying case: 26” x 26” x 11” (56 x 56 x 28 cm)

With hydraulic adjustable height, the Hydraulic AseptiStool gives the mobile dentist the comfort and flexibility of doing dentistry in the office. It is easy to set up, tear down and transport in its included padded case. Even with its sturdy construction and high weight capacity, the stool is lightweight and carrying it into any mobile dental scenario is simple. Made in USA.

Hydraulic AseptiStool ADC-10 $980
Replacement Padded Carrying Case 410213 $200

AseptiChair
ADC-01
• Sturdy, high-strength steel construction
• Lightweight, only 30 lbs (13.5 kg) in case
• 300 lb weight capacity
• Backrest adjusts from fully upright to supine
• Price includes padded case, arm slings, and headrest cushion – no hidden charges and no loose parts to misplaced!
• Adjustable seat height: 11” - 22” (55.9 cm)
• Padded carrying case: 23” x 34” x 8” (58 x 86 x 20.3 cm)

The AseptiChair’s sturdy rolled steel construction is lightweight, yet strong, making it perfect for portable dentistry. It is adjustable to five positions, with seat height ranging from 11 to 22 inches. The toe board folds down, allowing this portable dental chair to be used for examination. The included carrying case makes mobility and transportation simple. No assembly required.

AseptiChair ADC-01 $1,750
Replacement Padded Carrying Case 410193 $250
Replacement Locking Pin 460445-08 $15

Hydraulic AseptiChair
ADC-02
• Hands-free height and back adjustment
• Adjustable with patient in chair
• 300 lb weight capacity
• No external electricity or air required
• Handle and wheels for easy mobility
• 69 lbs (31.3 kg)
• Hydraulic adjustable seat height: 11” - 33” (27.9 - 83.8 cm)
• Folded dimensions: 33” x 22” x 18” (83.8 x 55.9 x 45.7 cm)

The Hydraulic AseptiChair provides hands-free operation and is the only portable chair available with adjustability functions comparable to a standard dental chair. All chair lift functions are foot actuated hydraulic for hands-free operation; no external power is required. The AseptiChair provides comfortable patient seating for patients up to 300 lbs. Wheels allow the chair to be easily moved.

Hydraulic AseptiChair ADC-02 $6,275
Replacement Dust Cover 410210 $220
**Portable LED Exam Light**

ALU-40LED
- Adjustable LED with seven beam diameters
- Durable construction
- Includes padded carrying case
- Optional Amber UV filter for working with composites
- 12 lbs (5.4 kg)
- Padded carrying case: 45” x 9” x 5.5” (114.5 x 23 x 14 cm)

The Portable LED Exam Light provides high-intensity LED light with seven beam diameter settings. It features a compact lamp head with adjustable intensity, flexible gooseneck, telescoping tripod stand and padded carrying case. When a standard electric outlet is not available, an auxiliary DC input allows 12V and 24V battery operation in the field.

**Portable LED Exam Light ALU-40LED** $1,295
**Optional Amber UV Filter 461974** $2

**Replacement Parts**
- Gray Padded Carrying Case 410084 $145

**Dental Supply Case**
ADU-01C
In field dentistry, good organization reduces stress. The Dental Supply Case is a convenient way to transport miscellaneous dental supplies. It is durable and easy to clean. The key to the efficiency of the Dental Supply Case, is that drawers make it easy to access supplies. Made in USA.

**ADU-01C** $240

**Portable Tray Stand**
ATC-03CF
The Portable Tray Stand is a sturdy and necessary addition to any mobile operatory. Standard size stainless instrument tray removes easily for autoclaving. It weighs less than 9 pounds and folds into included case when work is done. Made in USA.

**ATC-03CF** $795

**Portable Saliva Ejector**
AA-20
- Great for mobile dentistry or as a backup for sedation dentistry
- Powered by rechargeable battery pack, wall outlet or 12 VDC vehicle source
- Up to 60 minutes of continuous use on a single charge
- 800cc waste canister with float shut-off
- 6.3 lbs (2.9 kg)
- 9” x 7” x 8” (22.8 x 17.8 x 20 cm)

Great for mobile dentistry or as a backup for sedation dentistry, the Portable Dental Saliva Ejector can be powered by a wall outlet, 12V source, or rechargeable battery pack. It features an adjustable 80 - 550 mm Hg vacuum range and 800cc waste canister with float shut-off. Includes padded carrying case.

**Portable Saliva Ejector AA-20** $460
**Replacement 800 ml Canister AA-20CAN** $31
**Bacteria Filters AA-20BF-2** $11

**Portable Sterilizer**
ASU-12-110 and ASU-12-230
- Compact and portable
- 18-minute sterilization cycle (24-minute total cycle time)
- Only 6 minutes to reach sterilization temp
- Temperature: 250°F (121°C)
- 11.5 lbs (5.2 kg)
- 8 liter capacity

The Portable Dental Autoclave is designed to sterilize solid, unwrapped instruments in a 121°C saturated steam process during 18-minute sterilization cycle. Use distilled or de-ionized water only.

**110V Sterilizer ASU-12-110** $1,230
**230V Sterilizer ASU-12-230** $1,230

**Portable Saliva Ejector**
In addition to providing easy portable suction, the Portable Saliva Ejector fulfills the legal requirement for a backup suction system in the event of power or suction failure.

You Can Have It All With Today’s Mobile Solutions

Whether you’re placing sealants in a school program, servicing rural communities, traveling abroad on outreach missions, or starting a new entrepreneurial enterprise, Aseptico is here to help you find the products that fit your wish list. You’ll want to make sure to select the right equipment for the task at hand.

“With today’s mobile solutions you can have it all,” says Mark Mayer, Special Markets Manager for Aseptico, “handpieces, piezo scalers, curing lights, overhead illumination, ergonomic seating, digital radiography — even 3D oral scanning.”

Whatever your quest and mobile intentions, Aseptico equipment is designed specifically to meet your needs.

Here are options and accessories you’ll want to consider.

**Handpieces** Aseptico offers a range of specially selected electric, pneumatic, high speed, low speed, surgical, and endodontic handpieces to integrate into your mobile solution.

**Piezo Scalers** Benefits to using piezo scalers is that they don’t generate as much heat as ultrasonics and therefore use less water — which makes it the preferred solution for mobile dentistry. An available option for the AMC-25 Self-contained Mobile Operatory and Transport III dental systems, the piezo scaler can work all day with only a 1-liter water reservoir.

**Curing Lights** Aseptico offers the option of an integrated curing light on its AMC-25 unit that works with all restorative materials. It’s operated by a rheostat for control and ease of use. An audible timer quietly sounds at 10-second intervals to aid in timing accuracy.

**Sterilizer** How will you sterilize your handpieces and instruments in the field? Aseptico offers a compact easy-to-use autoclave with an 18-minute sterilization cycle.

**Overhead Illumination** Dental practitioners can always use more light. The Aseptico Portable LED Dental Exam Light is lightweight and luminous. Adjustable settings allow you to select the beam diameter and intensity level for every application, and includes an Amber filter setting for working with composites.

Battery technology is an important contributing factor driving performance advances in portable dentistry equipment. The Portable Saliva Ejector shown can operate up to 60 minutes continuously on a single charge. The wearable Battery Powered Lab Motor is surprisingly powerful for such a small unit.

Taking Your Dentistry on the Road?

The Aseptico sales team includes experienced and knowledgeable staff who can assist customers in military purchasing, non-governmental and charitable sales and provide expert assistance in the fast growing special markets of mobile dentistry serving seniors, schools, and rural and remote populations.

Quality System

Aseptico’s Quality Management System is certified for full quality assurance by the Conformity Assessment Body British Standards Institution (BSI) under the Medical Device Directive 93/42/EEC Annex II, and ISO 13485 which is recognized worldwide.

Return and Repair Policies

• Products that have been in clinical use cannot be returned for credit.
• Service and repair charges are billed on credit card. Customer is expected to accept charges up to $550 without advance notification. Minimum service/repair charge is $125.
• All returns and repairs require prior authorization. Contact Aseptico Customer Service for a Return Material Authorization number (RMA#).
• The RMA# must appear clearly on the exterior of the package being returned or it may be rejected and returned to the sender.
• Packages received without prior authorization are not the responsibility of Aseptico. Aseptico reserves the right to dispose of such packages and their contents 30 days after receipt with no obligation to the sender.
• The sender is responsible for proper packaging and for all costs for return shipment to Aseptico.
• New products may be returned for full credit (less shipping charges) under a Return Material Authorization number within 30 days of date of original invoice.

Warranty

Aseptico warrants its products against defects in material or workmanship for a period of two (2) years, from date of original invoice. This warranty is not transferrable. Some handpieces are warranted for one year under the same conditions. Other handpieces and expendable components, such as air turbinest and light bulbs, are covered by shorter warranty periods, or have no warranty. Aseptico’s sole obligation under product warranty is (at its sole option and discretion) to repair or replace any defective component or product in part or whole. Aseptico shall be the sole arbiter of such action.

Sales Tax

Aseptico uses a tax service (Avaya) to calculate and apply state sales tax to invoices for all states that Aseptico is registered to collect/remit sales tax. We reserve the right to register in additional states at any time and begin collecting/hemitting sales tax. The amount of tax charged on your order will depend upon many factors including type of item purchased and destination of the shipment. Factors can change between the time you place an order and the time of invoicing, which could affect the calculation of sales taxes. The amount appearing on your order as sales tax may differ from the sales taxes ultimately charged. Customer is responsible for any applicable state sales or use taxes not charged by Aseptico.

Sales Tax Exemptions

Unless Aseptico is in possession of a validated exemption certificate prior to shipment, the customer must pay the entire invoice, including sales tax. Certificates can be emailed to Atg@aseptico.com.

International Customers

Most Aseptico products are CE-marked and Health Canada licensed. However, customers should verify the status of any specific item(s) with their sales representative or local distributor prior to finalizing the purchase. Please contact your local Aseptico distributor for pricing and availability.

Prices shown in the catalog are in US dollars. If you are unsure of the Aseptico distributor in your country, for specific ordering and payment policies, or for general product inquiries, please contact our International Sales Department at intl@aseptico.com.

CUSTOMER SERVICE

We are here for you! Customer Service Representative Betty Moser has been supporting Aseptico customers for more than 16 years, and Call Center Lead Andrew “Drew” Cuevas, has been caring for customers for 6 years. All of Aseptico’s customer specialists are experts in Aseptico products and know how to help you.

There is no machine or technology invented that is maintenance free. We were so grateful to have an entire team supporting us from Aseptico, answering our every question and providing guidance even in the most challenging situations.

— John Snively, DDS
Northern Guatemala
Established in 1975 by Doug and Edyie Kazen to make the world a better place, Aseptico has grown from a team of two to a family of more than 100. Aseptico products help clinicians perform dentistry more effectively whether they are working in a high-tech practice or delivering care in remote regions in the world.

Over the years, Aseptico has transformed itself from a small producer of dental sundry items to a leading designer and manufacturer of dental equipment that is distributed worldwide. We proudly make our products in the USA and employ a local staff at our headquarters in the greater Seattle area.

Aseptico products are fully regulatory compliant to US and international manufacturing and safety standards, including FDA Good Manufacturing Practices, ISO 60601-1, and ISO 13485:2003. These certifications and our commitment to quality allow us to export to over 125 countries.

Penguin RFA helps you know when it’s safe to load dental implants.

Yes! Aseptico offers the Penguin RFA Implant Stability Monitor at a very affordable price! Accurate ISQ measurement provides greater confidence when determining osseointegration and safe loading times. Developed by the team who brought Resonance Frequency Analysis (RFA) to dentistry. If you place implants, you should have this break-through clinical aid.

See page 28 of this catalog for details.
